Research – Under certain circumstances, we may use and disclose Health Information for research. For example, a research project may involve comparing the health of patients who received one treatment to those who received another, for the same condition. Before we use or disclose Health Information for research, the project will go through a special approval process. Even without special approval, we may permit researchers to look at records to help them identify patients who may be included in their research project or for other similar purposes, as long as they do not remove or take a copy of any Health Information.

Special Situations:

As Required by Law – We will disclose Health Information when required to do so by international, federal, state, or local law.

To Avert a Serious Threat to Health or Safety – We may use and disclose Health Information when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.
